From

To

The Chief Secretary to the
Government of Mysore

Sir,

I have the honor to recommend the introduction of a Municipality into the village of Sakrepatna in the Kadur Taluk of this District.

2 This village was once the seat of a Pallegar and latterly the head-quarters of a Taluk. It is now the residence of a Shekdar, and the lands within its limits are irrigated by the large Hyenkere Tank, paying an annual Kandayam of Rs 13,800/- to Government and occupying the first place in point of revenue. This place is an intermediate station between Kadur and Chikmagalur and being well watered is greatly used as a halting place by travellers going to and from Chikmagalur

lies. The population is 4700 and there are 350 houses bearing a mohaturfa of Rs 220-8-0. as detailed in the margin.

Shop tax	Rs	145-0-0
Cart-tax	"	32-0-0
House tax	"	37-8-0
Mill tax	"	6-0-0

3 On the introduction of the municipality the house tax is estimated to rise to Rs 700/- and cart tax to Rs 100/-, as there all the houses will be liable to be taxed and an additional item of revenue may be expected from collections of about Rs 200/- from the pound which now goes to the credit of the district Funds.

4 On inspection, I found the village site far too large for its present requirements and owing to the fertility of the soil the majority of the site was overgrown with bushes and rank vegetation and which will take a large sum of money to eradicate or keep down and which would be impossible with the limited amount we can place at the

disposal of this village from the District Funds. On my enquiring of the inhabitants why there were so many vacant sites they informed me that people were afraid to come and live there on account of the unhealthiness of the place and at the same time begged that a Municipality be introduced to mend matters. I am of opinion that this insanitary condition is due to three causes—

(1) The stagnant water in the fort ditch which has since been remidied by draining it off.

(2) The rank vegetation.

(3) The foul water supply.

These can easily be remedied by strict supervision and the expenditure of a certain amount of money which will be derived from the revenue of a Municipality

5 Sattenpatna being such a general

general halting place between the Railway and Chikmagalur, the head-quarters of the District, I cannot urge the necessity for its sanitation too strongly, as, in its present insanitary condition, epidemics, such as Cholera and Smallpox, are frequently introduced and fostered here and spread to other parts of the District.

6. I propose an expenditure of Rs 450/- per annum to be spent on the conservancy establishment as shewn in the margin and will employ the funds available after meeting the same in providing a good drainage to the place.

4 Sweepers @ Rs 6 each per mensem	168-0-0
1 Cart @ Rs 16-0-0	192-0-0
1 Peon @ Rs 7-0-0	84-0-0
Contingencies	6-0-0
	450-0-0

* Probably for 4 months Rg.

7. After the sanction of the Government is conveyed, I shall begin to revise the taxation and will submit a budget of receipts and expenditure, so that the scheme may be early

introduced in the next months
when the revenue Act begins.
